> (VerbalSiegeEngine) The Duhem-Quine thesis of confirmational holism would be a defeater if true.

> (alanforr) DQ was solved by Popper in Logic of Scientific Discovery <https://conjecturesandrefutations.com/2018/03/27/howson-and-urbach-vs-popper/>

> (VSE) Maybe you can present the argument? I'm more interested in discussions than I am in link spamming.

> (alanforr) No. Why should I copy and paste something I wrote earlier and spend time reformatting it when you could just click on the link and read it?

> (VSE) To demonstrate you understand the argument

> (alanforr) Copying and pasting something I wrote earlier and then reformatting it has nothing to do with understanding.

> (VSE) I suppose I was under the mistaken impression the purpose of the server was to do philosophy. It seems like it's just to advertise a certain position. That isn't where my interests lie.
